

I just wanted to remind everyone as you are getting ready to write your budget reports that your participation in icouldbe has some definite advantages.

I believe you already know that you can calculate the time your students mentors spend with them on line and multiply that by \$75.00 this year.

Also, the cost of providing icouldbe to each of your students is \$300.00 per student. (Web based programs do have a lot of technical expenses) We are a nonprofit funded primarily by businesses so we can offer our program to you for \$85.00 per student. The difference of \$215 per student is our business support to you. You can add \$215 per student to you matching funds amount.

Let's take a look. You would be able to almost have all your matching funds!
